The Solution for Education

Lightspeed Systems has been working with schools, local authorities and MATs for over two decades to ensure our time-saving solutions work across the most diverse range of sizes, ages and device deployments.

1

ALL-IN-ONE APPROACH

Lightspeed's solutions safeguard students against dangerous content and self-harm, empower teachers with digital learning, and control and analyse device and app usage - all from a single intuitive interface.

2

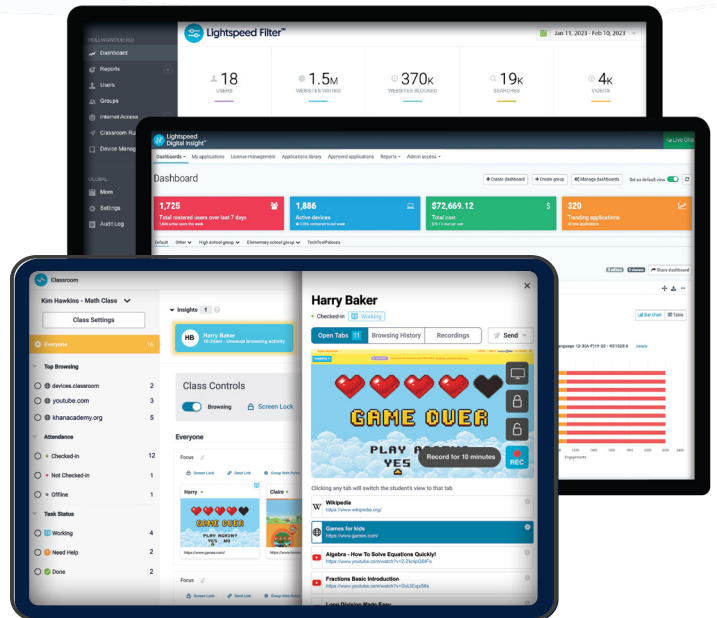

SCALABILITY

Lightspeed services are hosted within Amazon Web Services (AWS), built with all their best practices in mind, to ensure that it's scalable, redundant and able to support any organisation.

3

FAST DEPLOYMENT

Lightspeed's SmartAgents™ make deployment rapid and easy. SmartAgents can be deployed via GPO or SCCM for Windows, Gsuite for Chromebooks, any MDM for iOS and your favourite management tool for MacOS.

4

EDUCATION-FOCUSED

From direct YouTube filtering and categorisation with our proprietary SmartPlay™ technology to After School Rules, Lightspeed's solutions have been designed and adapted just for education.

5

CENTRALISED OR DELEGATED CONTROL

Our solutions give schools and organisations the ability to control all safeguarding and device management policies at the highest level or give individual schools and administrators a customisable level of control with admin roles.

Upcoming conferences

Bespoke safeguarding review

Our bespoke safeguarding reviews typically consist of:

- a desktop review of policies and procedures and a review of the school website
- a day on-site, working with safeguarding leaders and interviewing a cross-section of stakeholders
- a comprehensive written report with RAG-rated action plan (over 25 pages).

'From the initial email enquiring about taking part in a bespoke audit, to the report being received, the whole process was efficient, personal and user-friendly. The audit itself was excellent and was bespoke for mine and the school's needs.'

Mike Rickner

Deputy Head, Stowe School
